BETO PAREDES

ABOUT OUR PRINCIPAL BETO PAREDES

Beto's background is extremely diverse and ranges from core software engineering, entrepreneur training, presenting, public speaking, international sales, massive sales organizational management, business management, award winning branding and web development. Starting in the year 2002, Beto Paredes has worked as a professional in the internet space for 17+ years. Many of his projects have seen revenues into the millions and he continues to launch successful platforms to this day.

His accomplishments include major projects in web development, automotive sales technology, direct response affiliate systems, massive online community development, national sales organization development, medial industry sales, online marketing and network marketing.

Included in this list are the highly successful 5Linx (Inc 500) and Jeunesse Skin Care. Beto's companies have developed successful projects for Affiliate.com (Inc 500), Hydra Networks (Inc 500), Media Trust (Inc 500), LinkTrust (Inc 5000), AKMG, Get Ads, and others totaling over 2,500 projects since 2002. Beto was the only outside consultant brought onto a special analysis team by Microsoft when they were making their decision for moving their Ad Center to a new performance marketing platform (DirectTrack). Beto has built and launched several sales organizations. He currently operates 8 joint venture projects with partners managing all branding, web development, sales, business development and marketing.

ABOUT OUR PRINCIPAL BETO PAREDES

CONTINUED

Beto developed the training center, all sales materials and ran the national calls onboarding 1,800 sales reps for a medical device company in 2018. He has developed training and onboarded thousands of distributors for a variety of network marketing companies. He currently operates his own high-ticket back office sales program with several hundred reps nationwide offering over 12 technology-based products and services nationwide.

Beto Paredes has held CEO, CTO, CIO, COO, CMO, President, GM and many other titles in several successful companies. Beginning early 2000 he was the General Manager of Big Tree Northwest, a coffee corporation with 7 locations, over 80 employees, and a distribution center that sent their propriety chocolate blends all over the world. He gained training in business management through the state of Oregon government education programs and eventually took over every process within the company from the top offices down to the management of all staff and every location. In 2002 he started his first technology company and partnered up with another software developer writing his first application based in HR and Payroll. That software sold to a company in Big Bear California.

ABOUT OUR PRINCIPAL BETO PAREDES

CONTINUED

It was in 2002 that he met Clark Colvin, the first of several very successful mentors that helped shape his mindset in enterprise development over time. (See Clark's quote on our testimonial page). Three of his companies, ApogeelInvent, Auto Search Technologies, Inc and the Beto Paredes Family of Companies have been in business for almost 2 decades since 2004 and collectively have over 3,500 clients.

Beto has also appeared several times as a guest speaker at conferences in the Automotive, MLM, Affiliate Marketing, and Software Engineering space. These include several national IT Summits, Affiliate Convention Denver, several state IADAs and the Ad-Tech OfferVault Leadership Conference. He is still currently engaged as a speaker and trainer.

ENGAGEMENTS WITH THE BETO PAREDES FAMILY OF COMPANIES MUST INCLUDE THE FOLLOWING:

- Guaranteed development investments: Partnership pricing on hourly work is provided.
- Management and business development budgets if engaging in this part of the model.
- Equity in the JV agreements with a share in the revenue model.
- Equal ownership in any IP developed during the engagement lifecycle

THESE COMMITMENTS VARY DEPENDING ON THE SCOPE AND DIVERSITY OF THE BUSINESS MODEL.

INVESTMENT PARTICIPATION AS PRINCIPALS AND NEGOTIATION DISCUSSIONS

Adding our services, commitments, executive positions and business model opportunities may aid greatly in the investment ask.

We expect that you will have your own investment community you are working with. If we are working on an engagement and we are included in your business design, we will participate. Travel costs and agreed to contract costs must be negotiated for early involvement for helping with the capital raise.

These may or may not be required as a pre-payment before funding. It all depends on the engagement.
